

DEMOGRAPHIC ANALYSIS

Project Brief

You are employed as a Data Scientist by the World Bank and you are working on a project to analyse the World's demographic trends.

You are required to produce a scatterplot illustrating Birth Rate and Internet Usage statistics by Country.

The scatterplot needs to also be categorised by Countries' Income Groups.

You have received an urgent update from your manager.

You are required to produce a second scatterplot also illustrating Birth Rate and Internet Usage statistics by Country.

However, this time the scatterplot needs to be categorised by Countries' Regions.

Additional data has been supplied in the form of R vectors.
